TAURUS GOLD

Beef from Uruguay

Good beef no longer has to come exclusively from Argentina. Meat from Uruguay is at least as good. It is lean and has a firm texture. The pleasant, intense flavor comes from the animals' natural rearing. Cattle from Uruguay feed exclusively on grains, grasses, and mineral-rich plants in the wild. Livestock farming laws prohibit the use of hormones and other performance-enhancing substances. The meat is free of residues common in factory farming.

- ✓ Hormone-free
- ✓ Year-round grass-fed
- ✓ Year-round outdoor pasture-reared
