DAIRY

NEW IN SORTIMENT

ORGANIC DAIRY FARM BERL

Sustainable agriculture in Lower Bavaria

The family-run farm in Thanhof near Ascha has been operating organically since 2008, focusing on animal welfare, sustainability, and regional sourcing. Mother-calf rearing, ample outdoor access, and fresh feed are key principles. Silage, genetic engineering, and artificial additives are avoided.

Dairy cows & feeding

Around 50 cows receive fresh grasses and herbs in the summer, and sun-dried hay in the winter – no fermented feed.

Farm dairy

Since 2018, products made from unpasteurized hay milk have been produced on site: semi-hard cheese, Camembert, cream cheese, butter, yogurt, and drinking milk (non-homogenized, rich in Omega-3). A2 milk is also part of the product range.

Quality & Awards

With its Bavarian organic seal and Biokreis membership, the farm stands for transparency, regional marketing and modern, animal-friendly agriculture.
